revolutionary brow shaping tool!

Patented Press-on Fill-in Stencils & Built-in Tweezing Guides

ditzy™ cosmetics

Create Salon Perfect Brows in just seconds!

The **Brow Creator Press-on stencils** are the first and only brow stencils made of soft medical grade fabric. Extremely gentle on the skin, the stencils contour easily over the natural brow bone giving you an eyebrow shape that is uniquely yours.

Lift the **fill-in stencil** from the backing strip leaving the pink inner section behind.

Ensure eyebrow and surrounding area is clean and dry.

Place the **fill-in stencil** over the brow bone lining up the vertical marking with tear duct & press in place. Repeat on other brow and line up horizontal markings on stencils to ensure symmetry. Fill-in using the **Natural Effect Brow Palette™**.

Peel off in direction shown. Place the **stencils** back onto the backing strip. Reuse **stencils** over & over.

WOW!

Tips: Apply the **stencils** after face is moisturized. Remove excess cream.
Apply the **stencils** before foundation and/or face powder.

Quick Tips For Mistake Proof Tweezing

Ensure eyebrow and surrounding area is clean and dry.

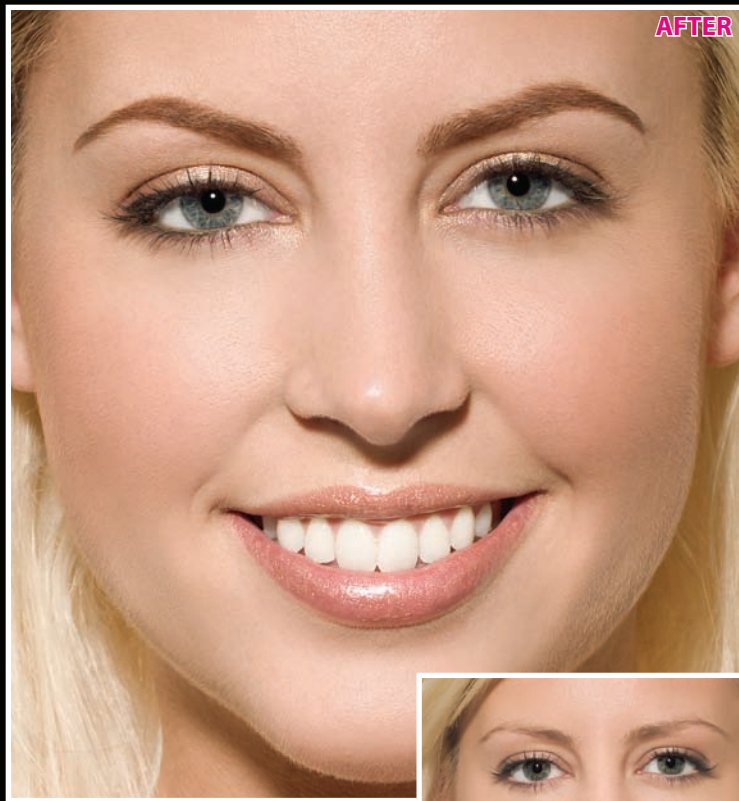

1. Peel off pink inner section of left and right eyebrow stencils from box.
 2. Place directly over eyebrow.
 3. Press in place.
 4. Tweeze to remove unwanted hairs outside of tweezing guide.
- You can also trace out the shape and then tweeze unwanted hairs.

Just select your favorite shape, press-on, fill-in and go!
